If you are among the many Canadians who believes that having your garments cleaned shouldn't have to come with environmental and family health concerns, you'll appreciate the solvent-free difference at **Carriage Trade Cleaners**.

Carriage Trade Cleaners specializes in "wet cleaning" using water and non-toxic, biodegradable detergents to clean fabrics. This process is extremely gentle on clothing so your clothing will last longer. Many customers notice a fresh natural scent and a soft feel that is pleasant and kind to sensitive skin. They finish each garment for that crisp, tailored appearance you expect.

From natural and synthetic materials, to leather, suede and more, the German-made Miele wet cleaning system at **Carriage Trade Cleaners** can clean all business, formal and casual garments, comforters, uniforms, draperies with perfect pleats and more. Alterations, repairs and expert tailoring are available-minor repairs are often free. Wedding gowns can be cleaned and preserved with keepsake container or embroidered cotton garment bag.

Carriage Trade Cleaners also offer an in-car Drive-Thru service for pick-ups and drop-offs (with complimentary gourmet coffee), plus 24 hour drop-off via pre-arranged access key. You are notified by e-mail or text message when your order is ready to be picked up.

With a history spanning over 4 decades, **Carriage Trade Cleaners** is a 3 generation family business overseen by **the Kimmerer Family** along with a well-trained, professional team who ensure your complete satisfaction.
